(10 marks)

TEST 6

Read the poem and answer the questions.

At evening when I go to bed
I see the stars shine overhead;
They are little daisies white
That does the meadow of the night

And often, while I'm dreaming so,
Across the sky the moon will go;
It is a lady, sweet and fair,
who comes to gather daises there.

For when at morning I arise ,
There's not a star left in skies;
She's picked them and dropped them down
Into the meadows of the town

1. What does the poet see when he goes to bed ?

.....

.....

TEST 9

Read the following text and answer the questions given below.

The calendar is a way of measuring time. It divides time into days, weeks, months and years. Most calendars are based on the length of time it takes the Earth to go round or orbit, the Sun. The oldest calendar known was an Egyptian invention.

Some scientists think it was devised as early as 4241 B.C. This calendar divided the year into 365 days. The calendar most often used today is Gregorian calendar, invented by pope Gregory in 1582. Chinese, Islamic, Hindu and Jewish calendars are also used in different parts of the world.
(Junior Encyclopedia of science -Aroras)
