Animals

To enhance the beauty of flora and fauna animals play a vital role. There are different types of animals in the world. Tiger, lion and hyena are carnivorous animals. Domestic animals like donkeys, cows, buffaloes and goats live on grass. People keep some birds and animals as their pets like cats, parrots and puppies because of their sweet and soft nature.

The shape, colour, gesture and varieties of nature amused us all the time. We see many animals in the zoo. Among all the animals the monkey is the most interesting. Zebra has black and white stripes in its body and the giraffe has a long head. The elephant is the biggest among the living animals in the forest. They live in a large group in the forest but sometimes enter into the locality in search of food.
